

Monitoring Summary Schedule						
(Summaries of Monitoring Programs/results must be publicly available)						
A series of summary reports (by topic/project) would be produced over a 5 year cycle						
AI-Pac Monitoring Programs		Proposed Year for public summary				
		2016	2017	2018	2019	2020
1	Yield of all forest products harvested					
	Timber monitoring of delivered fiber					X
2	Growth Rates, Regeneration and Condition of Forest					
	Alberta Vegetation Inventory	X				
	Permanent Sample Plots				X	
	Residual Stand structure Monitoring (in-block)		X			
	Residual Monitoring (landscape)		X			
	Regeneration Monitoring (establishment/performance surveys)					X
3	Changes in Flora and Fauna					
	Biodiversity Monitoring	X				
	Effectiveness Monitoring	X				
	Bird Monitoring			X		
4	Environmental Impacts					
	Fish Bearing Streams assessments				X	
	Stream Crossing Assessments				X	
	High Conservation Values		X *			
	Environmental Effects Monitoring					X
5	Impacts on Cultural Values and Resources					

	Community Report			X		
6	Economics					
	Socio-economic Impact Assessment		X *			
7	Other					
	Forest Stewardship Report (regulatory based; linked to GOA Planning Standard)			X
