

**SCHEDULE “D”**

Log Title Transfer and Right of Access Guarantee. The Seller shall have the following completed by the owner of the land, and provide a copy to the owner. This must be signed by all owners listed on the certificate of title to the subject land.

Land Title Owner(s) (“Owner”) - List all names on land title	Legal Land Description(s) (“Lands”) - List all quarter sections being harvested

ESTIMATE OF TOTAL DECIDUOUS TONNAGE FROM THIS LOCATION IS \_\_\_\_\_ Tonnes

ESTIMATE OF TOTAL CONIFEROUS TONNAGE FROM THIS LOCATION IS \_\_\_\_\_ Tonnes

This letter acknowledges that the Owner of the Land has sold or transferred all of its title and interest to all logs (the “Logs”) harvested from the Lands to \_\_\_\_\_ (the “Seller”). The Owner understands that the Seller has paid or will provide payment directly to the Owner for any Logs removed from the Lands. Alberta Pacific Forest Industries Inc. (“Al-Pac”) is hereby granted access to the Lands for removal of the Logs until such time as all of the Logs are removed from the Lands.

The Owner further acknowledges that any damages to the Lands caused by the Seller are the sole responsibility of the Seller and the Owner will not hold Al-Pac liable for any such damages. The Owner(s), if an individual or individuals, consent to the use and disclosure of their “personal information”, as that term is defined in “the *Personal Information Protection Act* (Alberta) as amended from time to time and any applicable similar, replacement or supplemental provincial or federal legislation or laws in effect from time to time, by the Seller and Al-Pac to confirm the ownership of the Lands.

Al-Pac is committed to maintaining an internationally competitive and sustainable enterprise with minimal effect on the environment. Maintaining forestry certification from the Forest Stewardship Council® (FSC®) and compliance with the European Union Deforestation-Free Regulation (EUDR) aligns Al-Pac’s fibre sourcing policy with these goals.

In this regard, Al-Pac recognizes the important role that forested land plays in mitigating climate change. Additionally, forests can help to stabilize soil, protect riparian areas, mitigate the effects of wind and provide important wildlife habitat. Should the Owner wish to return the harvested land back to a forested state in the future please contact Al-Pac’s Silviculture Team for more information at 780-525-8000.

To maintain compliance with the FSC Controlled Wood and EUDR requirements, the signing of this contract confirms the Owner’s acceptance of a Land Assessment included as part of this Schedule D for each harvest area.

**FSC/EUDR Land Assessment (separate assessment to be completed for each harvest area):**

The harvest of the timber is in compliance with all applicable laws:	Yes No	If no, timber cannot be accepted.
The removal of the timber will not violate traditional or human rights:	Yes No	If no, timber cannot be accepted.
There is no Indigenous Peoples' opposition to the harvest:	Yes No	If no, work to understand opposition and confirm that legal and customary rights of Indigenous Peoples are not impacted by harvest operations.  The owner will notify AI-Pac's Purchase Wood Coordinator at 780-525-8000 immediately if opposition to the harvest from Indigenous Peoples, with legal or customary rights within the harvest area, arises during the course of the contract.
The timber is not genetically modified:	Yes No	If no, timber cannot be accepted.
High Conservation Values (HCV) are not jeopardized by this harvest. HCV is defined as a biological, ecological, social, or cultural value of outstanding significance or critical importance:	Yes No	If no, timber cannot be accepted until risks to High Conservation Values are mitigated.
<i>EUDR Deforestation-Free Assessment (obtain evidence to support assessment)</i>		
1. Could the harvest area be considered agricultural use as per the EUDR? Determined by the presence of a fence for containing livestock, and evidence or confirmation by the landowner that the harvest area has a history of pasture use.	Yes No	If yes, EUDR compliance confirmed.  If no, proceed to question 2
2. Does the landowner intend to reforest to natural forest conditions or leave the harvest area to grow back naturally?	Yes No	If yes, <u>landowner signature below confirms this is the case.</u> EUDR compliance confirmed.  If no, proceed to question 3.

3. Is the intended post-harvest use of the harvest area going to be agricultural production	Yes	If yes, timber cannot be accepted unless segregation can be achieved throughout production and sale.
	No	If no, provide evidence of intended post-harvest use. EUDR compliance is achieved.

**The Owner's contact information is:**

[Contact information will only be used should Al-Pac be audited through forest certification on our purchase wood program. This may require Al-Pac to verify harvest locations. In any case, the Owner's contact information will not be distributed outside of Al-Pac.]
